

Prepayment RFO – Timeline

09/19/12

The following timeline and list of actions in the 2012 Request for Offers for Prepayment of Electricity (RFO) is provided as a simplistic summary of many actions required under the RFO. BPA has attempted to make this list as accurate as possible, but it absolutely is not intended to be inclusive—the timeline below does not capture all dates, RFO notices or requirements. Interested Parties are advised to specifically review the terms of the RFO. This list is only illustrative and does not replace or change any requirements as set forth in the RFO. Each Interested Party is responsible for monitoring and meeting all deadlines and obligations as stated in the RFO.

August 14, 2012		BPA provides the RFO to all customers
		<u>WEBINARS</u>
